## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Species II in the reply filed on 8/1/05 is acknowledged. The traversal is on the ground(s) that the Examiner has not provided any reasons for the restriction, has not presented proper basis for requiring election/restriction and has not met the burden required to establish why the claims cannot be examined together. This is not found persuasive because in the restriction requirement mailed 6/28/05 Examiner has clearly pointed out the patentably distinct species of the claimed invention.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Blake, III (US 5281220). Blake, III discloses a manual actuating apparatus for operating a medical device comprising a handle (24); a finger loop (44); a first lever (32); a second lever (66) and a force transmitting member (18) whereby, in the course of operating the medical device, the operator can reposition his fingers between the first and second lever members with rotation of the finger within the finger loop to thereby assure a

comfortable hand posture throughout the complete range of operation of the medical device.

***Allowable Subject Matter***

Claims 2, 5 and 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
